EARTHQUAKE SIMULATOR

Experience the effects of an earthquake like the one that shook Haiti in 2010.

REGIONAL ARCHAEOLOGY - OUR CONTRIBUTION

The exhibition *Regional Archaeology - Our Contribution* presents some of the discoveries made in recent years by the Museum and its partners at four of the region's aboriginal archaeological sites. These important discoveries have documented the beginning of the human adventure along the Saint-François River in the Late Paleoindian period, more than 9,000 years ago.

THE SOUL OF THE MUSEUM

Collections are the soul of a museum. Discover the nature and secrets of some of the specimens in the collections.

THROUGH THE EYES OF SUZANNE BRÛLOTTE

See a selection of the most beautiful photos by the renowned wildlife photographer.

LEVEL 2

FISHING STORIES

January 25 to September 2, 2024

Can you remember your last big catch? You probably posted its photogenic snapshot all over your social media! After all, all self-respecting fishermen and women keep a fishing story or two in their back pocket...

Fishing Stories dives into the history of sport fishing in Québec, from the arrival of English soldiers at the end of the 18th century to the present day.

Walking the fine line between fact and fiction, the exhibition takes a playful approach—especially with certain objects whose authenticity is unknown.
