EXHIBITIONS

Permanent exhibitions

AlterAnima immerses you in a fantastic forest where nearly 500 taxidermied specimens are revealed through a fun and interactive journey.

Sève is an immersive exhibition that explores the potential of science to address environmental challenges and contribute to a sustainable future.

Temporary exhibitions

Giraffe, Anne Innis Dagg's Tallest Passion introduces you to a Canadian pioneer in the study of giraffes and helps you discover these fascinating giants.

Minero on Safari reveals the unsuspected links between the animal and mineral kingdoms through more than 150 specimens.
